<b>Office Action Summary</b>	<b>Application No.</b> 10/525,292	<b>Applicant(s)</b> KRAUSE ET AL.	
	<b>Examiner</b> Elizabeth C. Kemmerer, Ph.D.	<b>Art Unit</b> 1646	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to a pharmaceutical formulation comprising antibodies with specific shelf life requirements.

Group II, claim(s) 13-15, drawn to buffer compositions.

Group III, claim(s) 16-23, drawn to pharmaceutical compositions comprising antibodies, and further comprising specific buffers, surfactants, and stabilizers.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The PCT rules define a special technical feature as a feature that defines the claimed invention over the prior art. However, the invention described by claim 1 is anticipated by the prior art. As explained in the international phase, Corbo et al. (US 6,024,938; issued 15 February 2000; of record) discloses a liquid aqueous pharmaceutical formulation comprising an antibody in a buffer having a pH between 4 and 8 and having a long shelf life. Therefore, since the first claimed invention fails to distinguish over the prior art, it does not have a special technical feature. It follows that it cannot share a special technical feature with the other claimed inventions. Inventions II and III differ from Invention I in several ways. First, Invention II does not require an antibody. Invention III requires a combination of antibody, buffer, surfactant, and stabilizer compounds. Therefore, each Invention is distinct from the others, requiring its own search of the patent and non-patent literature databases.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
